

Dr Daniel Badger

Daniel is an ACPSEM Certified Medical Physics Specialist with over 20 years experience in various areas of imaging physics including Meteor Astronomy, Medical Imaging, Lasers and Surveillance radar.

His areas of interest are Nuclear Medicine, particularly radionuclide therapy, Radiation Protection, Ethics and Education/Training. Daniel has previously worked in the areas of Defence, manufacturing of laser products and tertiary education (University), but is now employed by SA Health as a Principle Medical Physicist and Radiation Safety Officer.

Daniel is the current president of the Australian and New Zealand Society of Nuclear Medicine after chairing the Physics Special Interest Group for several years. Daniel has been studying the French language for about ten years, but trying it during a recent (2019) trip to Quebec showed he has some work yet to become fluent!
