

## **Rosanne Robinson**

Rosanne Robinson is the General Manager, Business Development & Commercialisation at ANSTO. Rosanne is an innovation and research commercialisation professional with broad experience cultivating the interface of science and industry. She has extensive experience in the commercialisation of cutting-edge technology across a range of fields, developing engagement strategies and international commercial partnerships that deliver value to collaborators and customers.

Rosanne's in-depth knowledge of the nuclear industry provide the companies and businesses she works with a clear vision across the field and allows them to stay up-to-date with the dynamics of the industry. For ANSTO she has led a range of strategic development projects, commercial contracting and technology transfer deals, focussing on delivering sustainable revenue and long-term business strategies.

Rosanne holds a Bachelor of Business, is a Chartered Accountant and a Graduate of the Australian Institute of Company Directors. She has over 25 years' business management experience having held a range of senior roles with both strategic and commercial focus in a variety of industries.

Rosanne is also a Non-Executive Director of Clarity Pharmaceuticals Limited, a clinical stage radiopharmaceutical company developing next-generation theranostics, based on its proprietary SAR technology.
