

NeuroEndocrine Cancer Australia Action Plan

Eight Key Actions

1 NET specialist telehealth nurses

3 Education of healthcare professionals (HCPs)

5 Optimal Care Pathway

7 Centres of Excellence

2 Information & resources

4 National awareness campaign

6 Data Registry (PLANET)

8 Targeted research

This National Action Plan under the guidance of NeuroEndocrine Cancer Australia, plans to establish, consolidate and expand within the above areas over the next five-year period.

Should you wish to speak to NeuroEndocrine Cancer Australia regarding further information on NETs, or how you can help support the 2022 – 2027 Action Plan please email info@neuroendocrine.org.au.

Show your support and help improve the lives of the thousands of Australian's living with NETs and the thousands who will be diagnosed this year. No longer should ***Australians slip through the NET.***
