

**We are hosting a NET Cancer
Day* morning tea
Friday 10 November**

Please support us by donating

 **SCAN ME**

**NeuroEndocrine
Cancer Australia**

Champions for early diagnosis and a cure

*NETs (Neuroendocrine Tumours) are Australis's 7th most commonly diagnosed cancer. Over 25,000+ are living with Neuroendocrine Cancer. Most would have taken 5+ years for their IBS, flushing or wheezing to be diagnosed as symptoms of a Neuroendocrine Tumour. Help raise funds and awareness to fight this disease on NET Cancer Day, Friday November 10

**Bring a gold coin or donate online and
enjoy a morning tea on us!**
